

REMARKS

The specification has been amended to include the priority data, to include sequence identifier numbers where amino acid and/or nucleotide sequences appear in Table 1, and to enter the substitute Sequence Listing. The claims have been amended to cancel claims 1-22 of the PCT application and to add new claims 23-52. No new matter is added by this amendment. The filing fees have been calculated after amendment of the claims by the preliminary amendment.

Should any additional fees under 37 C.F.R. §§ 1.16 to 1.21 be required, the Commissioner is hereby authorized to deduct said fees from Fulbright & Jaworski Deposit Account No. 50-1212/SONN:087US.

Respectfully submitted,

Mark B. Wilson
